9145 Balboa Ave
San Diego, CA 92123

July 15, 2002

Dear Ed,

Please use this letter as Hubbell's endorsement of Ideal Industries LanTek 6 and LanTek 7 Field Testers. We have utilized these hand held testers to evaluate the performance of our *SPEEDGAIN* Xcelerator™ 5E (Cat 5e) and *NEXTSPEED* Xcelerator™ 6 (Cat 6) link and channel configurations. The ability to accurately and repeatably correlate with our laboratory-generated data, obtained with the use of a Hewlett Packard 8753E Network Analyzer is extremely important to Hubbell Premise Wiring as well as our contractors. We also approve of the Ideal Industries LanTek 6 and LanTek 7 Field Testers for use in our 25-year "Mission Critical Program".

Sincerely,

Michael R. O'Connor, RCDD/LAN Specialist
Director-Technical Marketing
Hubbell Premise Wiring
